Development of Embedded System Courses with implementation of Innovative Virtual approaches for integration of Research, Education and Production in UA, GE, AM

DESIRE

TEMPUS-project 544091-TEMPUS-1-2013-1-BE-TEMPUS-JPCR

P08 –National Polytechnic University of Armenia

01.12.2013-31.11.2014

During the 1st year following activities were carried out
WP1:

- ✓ The SEUA's curricula on ECTS for Embedded Systems were analyzed and reported
- ✓ The competencies required at the Labor Market in ES were analyzed and reported
- ✓ The students environment was analyzed and reported

**During the 1st year following activities were carried out
WP 1, 2,4,7,8:**

- ✓ The delegation from SEUA was participates in “New teaching approaches in Engineering” seminar (September 14-21)
- ✓ Dissemination of received information and project in Armenia was held regularly
- ✓ The seminars of representatives of SEUA’s chairs were took place

**During the 1st year following activities were carried out
WP 1, 2,4,7,8:**

- ✓ The action plan with chair representatives in the project was developed
- ✓ Modification of existing curriculum related with Embedded Systems is in process
- ✓ The new courses development is in process
- ✓ Creation of practice-oriented curricula and modules in Embedded Systems is in process

The actions which were done:

- Collaboration among partners
- Dissemination of information
- Dissemination meetings in partners university
- Dissemination meetings with responsible Chairs
- Dissemination through web resources
- Information collection

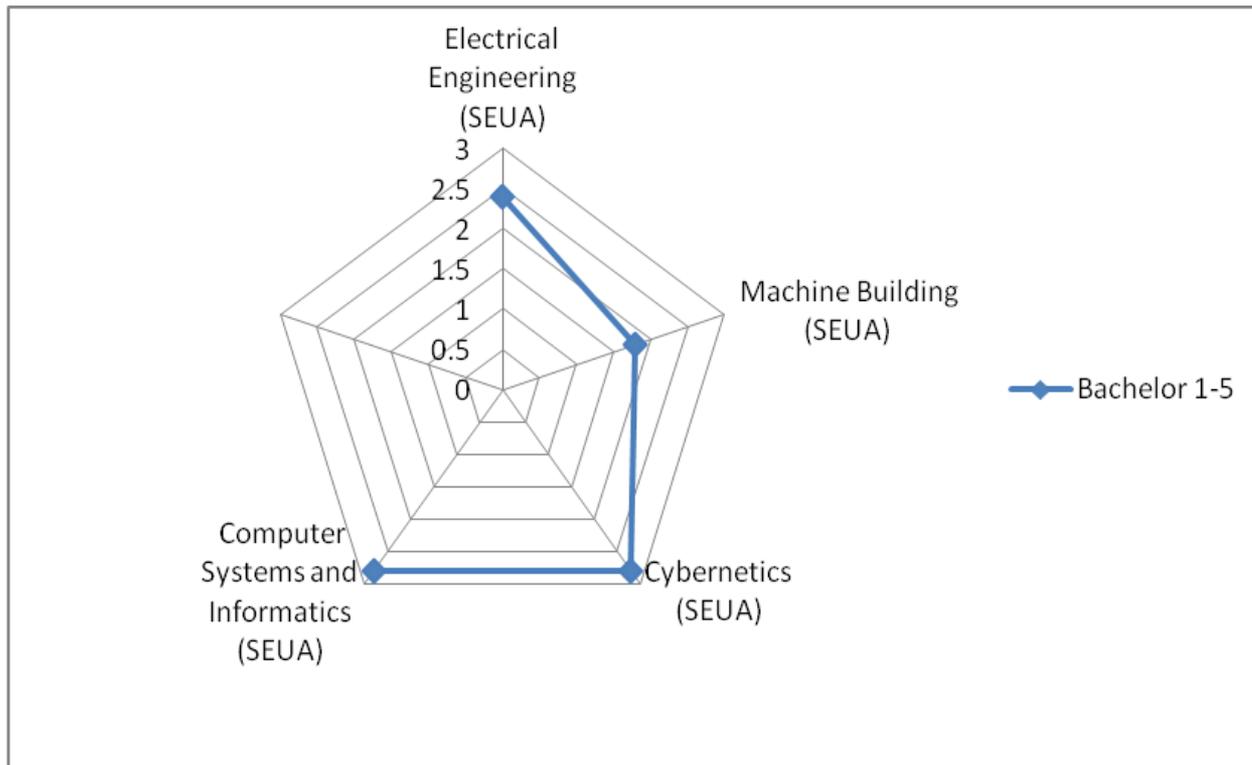

Main results of curricula analysis:

- The university has no special curriculum on Embedded Systems.
- The University programs involves different parts of Embedded System curricula in the curriculum of the different Faculties for some specializations.
- The University curriculum related with Embedded Systems should be used and modified.
- New courses should be developed.

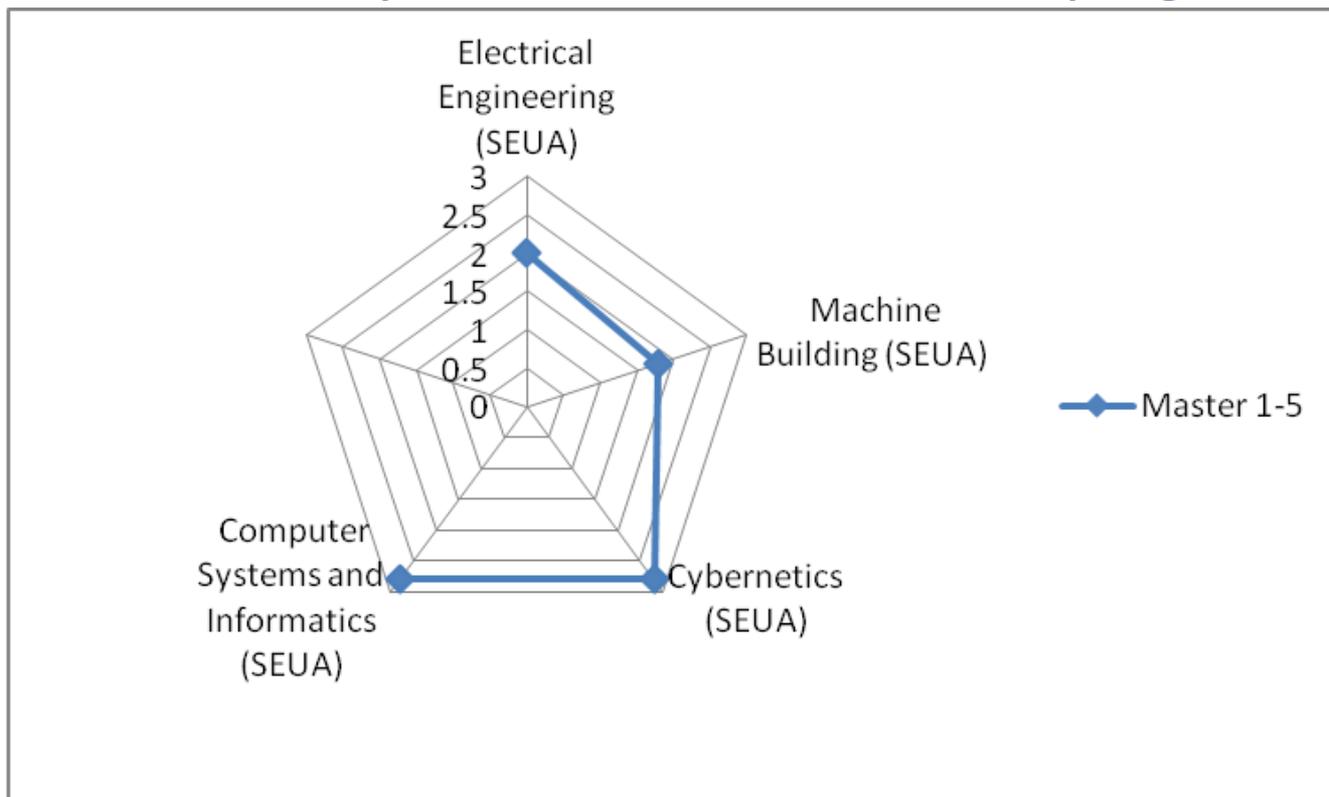

Evaluation Chart (Bachelor) Embedded System Courses in Faculties programs

Evaluation Chart (Master) Embedded System Courses in Faculties programs

Faculties involved in the Project are:

- Cybernetics
- Computer Systems and Informatics
- Electrical Engineering
- Machine Building
- Vanadzor branch
- Gyumi branch
- Kapan branch

Criteria for teachers election for the re-training

should be divided:

- A) Teachers who subjects closely connected to Embedded Systems
- B) Teachers who have specialties of Computer Programming, Cybernetics, Electrical Engineering.

University team meetings and partners meeting :

N r.	Date	Theme	Participants
	28.01.2014-30.01.2014	Kick of meeting	P1-P12
	03.02.2014	General management of the project	Armenian Partners
	05.02.2014	Practical Issues/ Info. Dissemination,	Local management team (SEUA-P8)
	07.03.2014	Discussions with head of chairs	Chairs representatives
	14.03.2014	Working meeting with chairs' representatives, responsible for embedded systems	Chairs representatives
	12.05.2014	Regional meeting (Analysis of the results of the labor market and student questionnaire development of local plan, analytical report on embedded system Curriculum in SEUA)	Local management team (SEUA-P8)
	15.05.2014	Regional meeting	P1-P12
	27.06.2014	Working meeting (preparation of Nitra course)	Local management team (SEUA-P8), and p
	01.10. 2014	Working meeting (after Nitra course)	Coordinator and Nitra course's participants
	20.11.2014	Meeting of "Workshop" organizational group	Organizational group

Dissemination activities

Setup university-enterprise contact group(UECG)

Developed dissemination plan

Developed local web-recourse

- Նախագծի մասին
- Աշխատանքային փաթեթ
- Մասնակից գործընկերներ
- Նախագծի կոնտակտներ և պատասխանատուներ
- Նորություններ

Long-term perspectives are (1):

- ✓ New teaching materials will be developed and introduced
- ✓ Updated and new Curricula on Embedded System will be involved in University program
- ✓ New teaching material will be developed and used

Long-term perspectives are (2):

- ✓ Experience of partner countries will be used
- ✓ New equipment will be upgrade
- ✓ Establishment of Long term collaboration between University and Industry
