

Tempus

Development of Embedded System Courses with implementation of Innovative Virtual approaches for integration of Research, Education and Production in UA, GE, AM

DESIRE

TEMPUS-project 544091-TEMPUS-1-2013-1-BE-TEMPUS-JPCR

P12–Yerevan Research Telecommunication Institute

01.12.2013-30.11.2014

Overall Achievements during the 1st Year

- YeTRI local project team was formed
- The Labor Market Survey in Embedded Systems was carried out with partner university team

Activities Carried out

- Regular Disseminations within the scope of DeSIRE Project were held in Yerevan
- On July 15, 2014 Dissemination of DeSIRE Project was held in Sevan Town, Armenia.

Activities Carried out within the Scope of the Project

YeTRI delegation participated in ***“New teaching approaches in Engineering”*** summer school in Nitra, Slovakia.

Activities Carried out within the Scope of DeSIRE Project

Dissemination seminar with YeTRI staff and ICTMS Chair members of NUACA about the experience gained within ***“New teaching approaches in Engineering”*** summer school was held.

Activities Carried out within the Scope of DeSIRE Project

Supporting and preparing certificates for the retraining participants held by ICTMS Chair members of NUACA about “Implementing Electronic learning on Moodle System”.

Activities Carried out within the Scope of WP 1, 2,4,7,8:

- The local project plan with YeTRI local team members was developed

Activities Carried out

- Collaboration was set among partner universities
- Dissemination meetings with partner universities were held
- Support of Retraining within the scope of Desire Project:

*Criteria for researcher election for the re-training
is as follows*

Researchers who have specialties in Computer Programming, Cybernetics, Electrical Engineering.

YeTRI Team and Partner Meetings:

Nr.	Date	Theme	Participants
	28.01.2014-30.01.2014	Kick of meeting	P1-P12
	03.02.2014	Management Issues of the project	Armenian Partners
	20.02.2014	Dissemination,	Local management team (YeTRI P12)
	10.03.2014	Discussions at YeTRI	Staff representatives
	15.05.2014	Regional meeting	P1-P12
	10.09.2014	Working meeting (preparation of Nitra Summer School)	Local management team (YeTRI 12)
	10.10. 2014	Dissemination meeting (after Nitra course)	Coordinator and Nitra Summer School participants

Tempus

Long-term perspectives

- Experience of partner countries will be studied and implemented
- Virtual laboratory for the practical lessons of ICTMS Chair specialties will be set and used

Tempus

Development of Embedded System Courses with implementation of Innovative Virtual approaches for integration of Research, Education and Production in UA, GE, AM
